

CARBON TAX

**ONLY TAX THOSE WHO
ABUSE YOUR NATURAL
RESOURCES!**

Per ton tax for carbon emissions

- Predictable cost of energy
- Quickly implemented
- Immediately reduce emissions
- Simple to understand
- Easily enforced
- Revenue for programs or tax incentives

- Per capita, America emits four times as much CO₂ per capita than any other county
- CO₂ is the largest contributor to global warming
- Today's CO₂ levels represent a 25% increase over the highest recorded natural levels

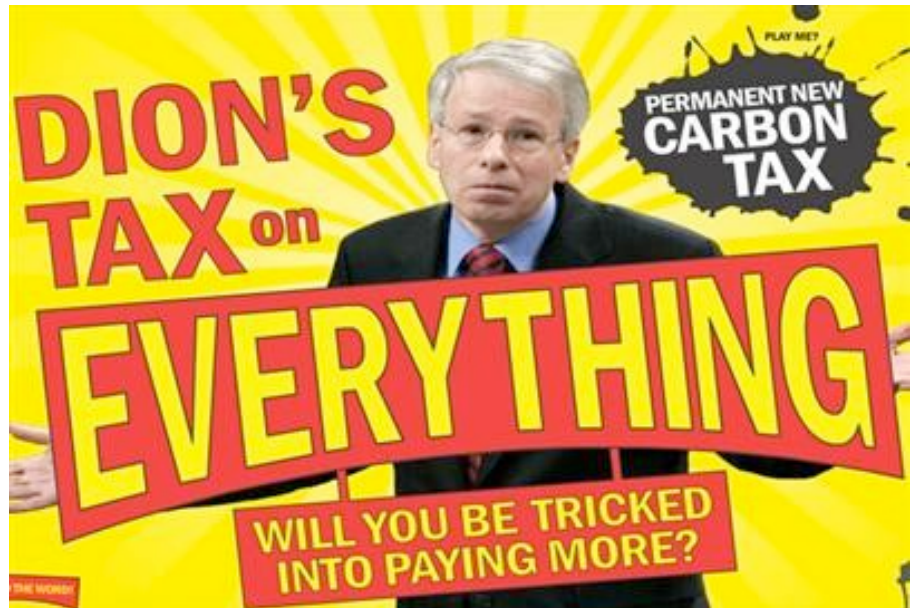

DO YOU WANT TO HURT THE ECONOMY?

CARBON TAX IS UNAMERICAN

Everyday Americans will be forced to pay the carbon taxes for the big companies. Why should you pay their taxes for them? They don't pay for yours.

You should not have to pay to use your own natural resources.

- Cripple the poor and middle class
- Wont change habits, emissions will not be reduced
- Subsidies and efficiency standards will solve the problem
- Impede economic recovery
- US goods will no longer be competitive
