

SAY NO TO OFF-SHORE DRILLING!

Off-Shore drilling removes natural buffers and leaves coastal areas vulnerable to erosion and hurricanes

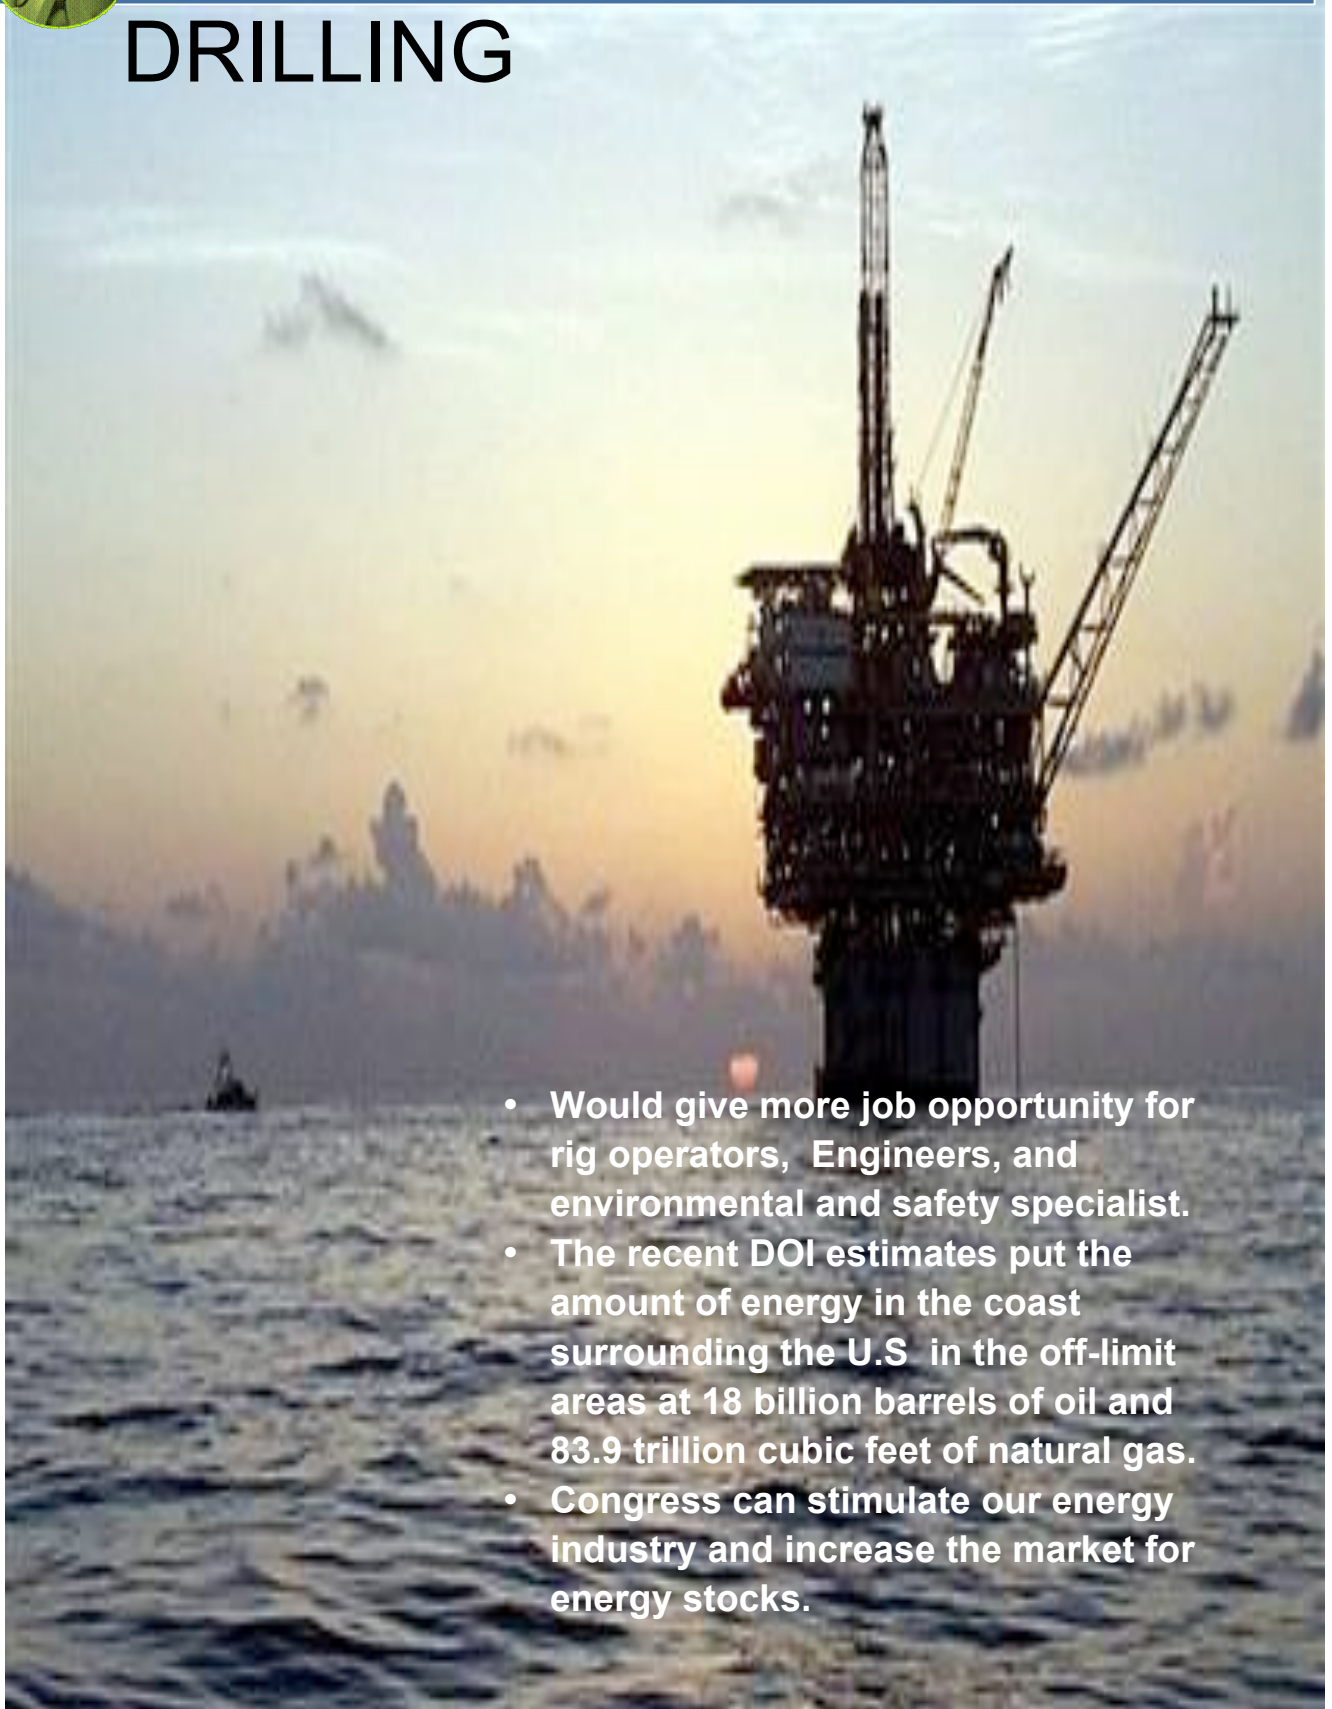

Oil spills devastate the environment and wildlife

Oil exploration sonar confuses sea mammals

Keep our oceans clean and oil-free.

PROS OF OFFSHORE- DRILLING

- **Would give more job opportunity for rig operators, Engineers, and environmental and safety specialist.**
- **The recent DOI estimates put the amount of energy in the coast surrounding the U.S in the off-limit areas at 18 billion barrels of oil and 83.9 trillion cubic feet of natural gas.**
- **Congress can stimulate our energy industry and increase the market for energy stocks.**
