

Quiz 10 - ECGR 4101 - 11/5/08

Q1 Name (1pt)

Q2 write the single line of C code to read the UART2 receive buffer & store it to variable (char or int) mybuff

`mybuff = U2rb; or mybuff = U2rbl;`

4pts

Q3. What does the code on notes page 11-23 do?

Transmits characters through UART0,
starting with 'A', going to 'Z', then
starting over again.

5pts

(1pt for trying,
1pt for each concept
above)
