Linux 1

Lab teams ||

ECGR 4161- 2/2/09 - Quick Evaluation

②

## Action Plan

- \* Cover more microcontroller detail
- \* Provide questions I expect students to answer from readings before class time.
- \* Make solid lab teams for lab 4 & beyond
- \* We will investigate other technologies for future labs (i.e. wheeled vehicles).
- \* You can buy your own Renesas Q5K62P Evaluation Board at [www.digikey.com](http://www.digikey.com)
